

# ANTI-BAC

ANTIBACTERIAL HANDWASH  
FOR EFFECTIVE CONTROL OF GERMS & BACTERIA

Eco-friendly, cosmetic grade hypoallergenic anti-bacterial liquid handsoap for the effective control of germs & bacteria. Cleans & moisturizes skin for a long lasting soothing & luxurious feel.

## PRODUCT DESCRIPTION

Anti-Bac<sup>™</sup> liquid hand soap is an environmentally friendly personal care cleanser which is a blend of highest quality hypoallergenic cosmetic grade ingredients, designed to clean hands & skin & leave a luxurious smooth feel while helping to eliminate pathogens. It is highly effective against a wide range of germs & bacteria, reducing the risk of infection & cross contamination.

## WORKPLACE INFECTION

Germs that cause common illnesses are invisible to the naked eye. No matter where you are, germs are spread from person-to-person & by touching everyday surfaces. Studies prove that humans now share more common surfaces with each other in history. Enclosed workplace environments are an exponentially higher risk for the spread of germs. Poor hygiene leads to increased illness & this results in disruption costs, low productivity & reduced employee efficiency. Hands are the single most effective method of spreading germs, yet over half of all workers do not know the basics of hand-washing. The average hand washing duration is less than 10 seconds, missing vital

areas where germs are commonly found. (e.g. under fingernails & on the back of hands). As hands are responsible for the spread of 80% of infectious diseases, effective hand hygiene is universally recognized as the smartest, most cost effective means of infections control in the workplace, helping to minimize wasted time & resources, thus saving organizations money all year round.

## FEATURES & BENEFITS

Anti-Bac<sup>™</sup> liquid hand soap is very gentle on the skin & leaves a light, lingering, clean fragrance. It contains the highest quality emollients that leave the skin feeling soft. It has a soothing hypo-allergenic on the skin & eyes & is safe for all skin types. Anti-Bac<sup>™</sup> will not cause dryness, irritation or inflammation of the skin. It is environmentally friendly & biodegradable. It has been formulated in accordance with cosmetic chemistry, with cosmetic grade anti-bacterial agents to sanitize the skin & provide additional germ protection. BioClean Anti-Bac<sup>™</sup> is made of natural ingredients from renewable sources & their derivatives making it a truly green eco-friendly product.

## APPLICATIONS

- Anti-Bac<sup>™</sup> anti-bacterial hand soap is excellent for these functions:
- Cleaning food & soils from hands after food preparation.
  - Eliminating germs & bacteria, preventing cross contamination.
  - For its ability to leave a lovely moisturizing, soft skin touch.
  - Helping hands to rehydrate & rejuvenate.
  - Hypoallergenic formulation means it's safe for all skin types & won't cause dryness, cracking or inflammation.

## CORRECT WASHING PROCEDURE

Wet your hands with clean running water (cold or warm), turn off tap & apply soap. Lather your hands by rubbing them together with Anti-Bac<sup>™</sup>.
